

# Masonry Nails

## Product

We produce the full range of masonry nails that are sold in either bulk or boxes of 100 to the industry, (plus the multi-national retailers via packers).

All nails are manufactured to industry requirements and, as there is no actual British Standard for masonry nails, we do adapt BS1202 Part 1 guideline tolerances. The nails achieve a very high hardness factor of 52 RC yet remain ductile enough to pass the 90 degree bend factor.

## Finish

To give superior anti-corrosion properties the nails are protected by a heavy duty zinc coating.

## Sizes

- 2.5mm: 25mm to 60mm
- 3.0mm: 30mm to 80mm
- 3.5mm: 50mm to 100mm (Specials manufactured to order)

## Packaging

Nails are packed in boxes of 100, boxes are then shrink wrapped in to packages of 1000 nails. The boxes we use show no manufacturers markings or brand, the labels can be designed to show your company name, computer codes and barcodes, or left neutral. Total own livery packaging is available upon request, subject to quantity. Alternatively, nails can be purchased in Bulk form in 20kg cartons to be packed down by you.

## Product Data

| Gauge (mm)       | Length (mm) | Box Quantity | Outer Quantity | Quantity per 20kg | Max fixture Thickness (mm) |
|------------------|-------------|--------------|----------------|-------------------|----------------------------|
| Light Gauge 2.5  | 25mm        | 100          | 1000           | 19 200            | 5                          |
|                  | 30mm        | 100          | 1000           | 16 200            | 10                         |
|                  | 40mm        | 100          | 1000           | 12 300            | 20                         |
|                  | 50mm        | 100          | 1000           | 9 900             | 30                         |
| Medium Gauge 3.0 | 60mm        | 100          | 1000           | 8 300             | 40                         |
|                  | 30mm        | 100          | 1000           | 11 200            | 5                          |
|                  | 40mm        | 100          | 1000           | 8 500             | 20                         |
|                  | 50mm        | 100          | 1000           | 6 900             | 30                         |
|                  | 60mm        | 100          | 1000           | 5 780             | 40                         |
| Heavy Gauge 3.5  | 65mm        | 100          | 1000           | 5 370             | 45                         |
|                  | 70mm        | 100          | 1000           | 5 100             | 50                         |
|                  | 75mm        | 100          | 1000           | 4 650             | 55                         |
|                  | 80mm        | 100          | 1000           | 4 300             | 60                         |
|                  | 50mm        | 100          | 1000           | 5 070             | 30                         |
|                  | 60mm        | 100          | 1000           | 4 250             | 40                         |
|                  | 70mm        | 100          | 1000           | 3 640             | 50                         |
|                  | 75mm        | 100          | 1000           | 3 400             | 55                         |
| Heavy Gauge 3.5  | 80mm        | 100          | 1000           | 3 200             | 60                         |
|                  | 90mm        | 100          | 1000           | 2 850             | 70                         |
|                  | 100mm       | 100          | 1000           | 2 570             | 80                         |
